

FAISAL UR REHMAN

REACT JS DEVELOPER | RESPONSIVE DESIGN | MATERIAL UI | TAILWIND CSS | BOOTSTRAP
• +92 321 5052842 • faisalrehman30003@gmail.com • [LinkedIn](#) • Rawalpindi, Pakistan

SUMMARY

Experienced React Developer with a strong background in building responsive, high-performance web applications. Expertise in developing reusable and scalable components, optimizing state management, and delivering smooth, user-centric interfaces. **Proficient in backend development using Node.js and MongoDB**, with hands-on experience in building RESTful APIs, designing database schemas, implementing authentication, and developing secure server-side logic. Skilled in collaborating with UI/UX designers and cross-functional teams to ensure seamless front-end and back-end integration and deliver reliable, production-ready applications.

TECHNICAL EXPERTISE

Frontend Technologies

- React Js
- Next.js
- JavaScript
- HTML5 / CSS3
- SCSS
- Bootstrap
- Tailwind CSS
- Material UI
- React Query

Backend & APIs

- Node.js
- Express.js
- RESTful API Development
- Socket.IO (Real-time Communication)

Databases

- MongoDB
- SQL
- MYSQL

Version Control & Collaboration

- GitHub

Payments Integration

- Stripe

State Management

- Redux Toolkit

PROFESSIONAL STRENGTHS

|------------------------------|---------------------|-----------------------------------|
| • Effective Communication | • Problem Solving | • Adaptability |
| • Project Management | • Time Management | • Team leadership & collaboration |
| • Teamwork and Collaboration | • Critical Thinking | |
| • Functional Programming | | |

WORK EXPERIENCE

Owasoft Technologies, Rawalpindi, Pakistan

January 2023 - Present

- Enhanced user experience by implementing responsive web designs and optimizing application performance.
- Developed reusable components to facilitate faster development timelines and improve overall code quality.
- Contributed to a positive UX through careful attention to design specifications and close collaboration with UI/UX designers.
- Designed intuitive graphical user interfaces to improve user experience and ensure smooth interactions with backend APIs.
- Built and maintained RESTful APIs and backend services with Node.js and MongoDB, ensuring secure and efficient data handling.
- Integrated real-time features using Socket.IO for real-time updates in web applications.
- Built and maintained RESTful APIs and backend services with Node.js and MongoDB, ensuring secure and efficient data handling.
- Utilized GitHub for version control, code reviews, and collaboration with cross-functional teams following best development practices.

PROJECTS

Sagatica:

- Designed and developed responsive user interfaces using React.js and Material-UI.
- Integrated backend APIs using React Query for efficient data fetching, caching, and state synchronization.
- Implemented Admin Panel and User Portal UI with role-based access and authentication flows.
- Built modules for assessment creation, question management, and assignment workflows.
- Ensured smooth UX with loading states, error handling, and optimized API calls using React Query.
- Collaborated with backend team to integrate Node.js and MongoDB APIs into the frontend application.
- Created mobile-responsive and accessible UI components using Material-UI best practices.

InkedFlow:

- Developed InkedFlow, a full-scale SaaS platform with Admin, User, and Customer portals, handling end-to-end frontend UI/UX implementation, backend development, and API integrations.
- Designed and implemented core business workflows including projects, quotes, contracts, invoicing, role-based access control, and Stripe-powered payments.
- Built scalable, secure, and user-centric features with a focus on automation, data integrity, and seamless user experience across the entire system.

Medi Discounts:

- Developed a healthcare discount platform to help users find affordable medical services and pharmacy discounts.
- Built a responsive and user-friendly interface using React.js.
- Integrated backend APIs using React Query for efficient data fetching, caching, and state synchronization.
- Implemented backend services with Node.js and MongoDB for managing users, discounts, and medical service listings.
- Added search and filtering features to help users quickly find relevant healthcare offers.
- Implemented secure authentication and role-based access control for admins and users.

Piddo Portal:

- Developed a full-stack web application using MongoDB, Express.js, React.js, and Node.js
- Implemented user authentication and authorization with secure JWT-based login system
- Built RESTful APIs for user management, data handling, and business operations
- Designed responsive and user-friendly UI using reusable React components
- Integrated form handling with validation for improved data accuracy
- Implemented role-based access control for admin and standard users
- Optimized API performance and handled errors using a centralized error handler

EDUCATION

Bachelor of Science in Computer Science (BSCS)	Sep 2020 - Jun 2024
National University of Modern Languages. (Rawalpindi Branch)	

LANGUAGES

- Urdu
- English
